Projects

Blob Kart - Spring 2024

C++ Video Game Project inspired by Mario Kart.
github.com/owncook/Blob-Kart

Utility Manager - Summer 2024

A web app to help track my two roommates' and my utility bills. Built using HTML, CSS, PHP, SQL, and Python.
github.com/aaronperkel/Utility-Manager

Room Status Sign - Summer 2024

An E-Ink display that is mounted on the door to my room that shows the status of what I am currently doing.
github.com/aaronperkel/Room-Display-Sign

DormKit - Fall 2023

Prototype "smart dorm" product that allows a user to install hardware in their dorm to control certain electronics from anywhere on a college campus.
github.com/aaronperkel/DormKit
